8. Modules per week	Theoretical	2	Practical	0	T.A.	0
9. Class hours	Classes	68	Teaching Assistance			
10. Prerequisites	None					

B. Contribution to the Graduate's Profile

Bearing in mind the changes in the job market, mainly because of the global environment, diversity and interdisciplinary view, Universidad del Desarrollo has proposed to educate its students through an educational project that will develop new skills, competencies and knowledge in students. Students will receive a solid education in their branch of knowledge, consistent with the needs of the working world so that they can successfully enter their profession at the end of their undergraduate education. Track courses have thus been designed in the aim of helping students gain more enriching learning experiences through extra-disciplinary education that will prepare them for the changing working world.

A thousand years of art and symbolism, is part of the Humanities Track and aims for students to get closer to a culture of the past, through its objects through an interdisciplinary journey that impresses, due to its mastery, beauty and content, allowing to enter into contact with a bygone era in all its dimensions. In this way, the student will analyze and reflect on artistic production that is the fruit of spirit and creativity and allows us to better understand the human being and our own culture. Taxing generic competences UDD Future of global vision and analytical vision.
